

Initial Build Review Notes

Creative Director: Katie Pan

Designer: Jared Garelick

Working well:

- My vision was captured really well with the coloring, images, and typography.
- The site is structured in one page, with all information found by scrolling down, works well and is not overly complicated.
- All information is neatly organized into boxes.
- The translucency effect on some of the images and the boxes containing information works well.
- Hierarchy is clear

Work on for next time:

- Adding footer
- Creating yellow tint for images
- Adding the yellow lines from the mockup
- Better responsiveness for mobile (fixing spacing issues on a smaller screen width)
